

## **U14 National Club Finals Evaluation Report 2007.**

After With a poor return rate from the U14 national clubs England Netball did not see that a fair assessment of the event could be deduced. Below are the additional comments from those forms returned.

### **Additional Comments**

Below are the subject topics and the additional information provided on the evaluation forms that were received at head office.

#### **Pre-event information**

- Website pre event information was easily accessed; however the process or procedure for entry for finals after qualifying could have been communicated clearer.

#### **Suitability of the venue**

- Venue – directions were confusing, not the most easily accessible venue from major motorway, parking facilities were poor, toilet facilities were very poor huge queues, courts were not easily accessible only one way on and off.
- The courts were excellent but we needed a venue more centrally based – too far to travel.
- Could have done with more toilets.
- A more central venue in the country would be better.

#### **Overall evaluation**

- It was our first time at an event such as this. The girls had a great time, and learnt a lot – we hope the event continues each year.
- We very much enjoyed this tournament – it is a great shame it is not going to continue. We enjoyed playing teams we haven't played before – an opportunity that is not often available. Some very strong teams no longer get to play against teams from other regions.
- Great day had by all.
- This was an excellent event. An event essential for clubs who have teams in this age group to gain a benchmark for their teams to ascertain the development achieved and required. It is an important event which should be continued.

- We enjoyed the day very much and a chance for northern and southern clubs to meet and compete. This event is a great opportunity for junior clubs to display their ability, potential and progression of their playing careers so far and marks the start of their youth status.
- The event was run very well!! And with no apparent hiccups WELL DONE!!

### **Conclusion**

From the information gathered in the evaluation of the U14 National Club Finals 2006/07, England Netball have seen it as a very successful event with some event procedural developments that arose from it.

One thing that England Netball felt was an over whelming success was the results service, which was fast, clear and concise.

Overall the feedback received was very positive, with some areas to improve.
