

We take very seriously our duty of care to all participants and we shall ensure that all the volunteers appointed by England Netball work at the Championships have completed a self-declaration form in respect of the protection of children and vulnerable adults.

During the Championship, your team officials will be responsible for your players and you will need to get consent from their parents or guardians, as appropriate, to act in loco parentis both at the event and during the journeys to and from the venue. This should include details of their medical history, allergies, their NHS number and the contact details of their GP, just in case they need to be treated by medical staff at the Championship.

We would ask that the Team Manager, or other team official, confirms that all the officials accompanying the team have been checked for their suitability to work with children / vulnerable adults. The minimum requirement is that they have filled in a self-declaration form in respect of criminal offences, social services investigations or disciplinary action by any other agency involving the abuse of children or vulnerable adults.

The signature at the bottom of this form will signify your confirmation that these checks have been carried out for the benefit and safekeeping of your players, and that I confirm that I have read and understood the conditions of entry regulations and that the signing of this form indicates a willingness to comply with all conditions and regulations which may be made.
